Contents

Regular Papers	Page No
A Secure Image Encryption and Embedding Approach using MRSA and RC6 with DCT Transformation	262
Ganavi M, Prabhudeva S, Sankhya N Nayak	
Optimization of Inter-Domain Routing and Resource Allocation in Elastic Multi-Domain Optical Networks	279
KIE Eba Victoire, ANOH Nogbou Georges, ADEPO Joel Christian, BABRI Michel	
Trust-Based Co-Operative Cross-Layer Routing Protocol for Industrial Wireless Sensor Networks	292
Manish Panchal, Raksha Upadhyay, Prakash Vyavahare	
Erudite Fish Swarm Optimization Based Routing Protocol to Maximize Wireless Sensor Network Lifetime	305
A. Balasubramanian, P. Ponmuthuramalingam	
Hybrid Simulated Annealing with Lion Swarm Optimization Algorithm with Modified Elliptic Curve Cryptography for Secured Data Transmission Over Wireless Sensor Networks (WSN)	316
S. Silambarasan, M. Savitha Devi	
Energy Efficient Evolutionary Algorithm based Clustering with Route Selection Protocol for IoT Assisted Wireless Sensor Networks	328
T. Chindrella Priyadarshini, D. Mohana Geetha, E. A Mary Anita	
Ambient Intelligence-Based Fish Swarm Optimization Routing Protocol for Congestion Avoidance in Mobile Ad-Hoc Network	340
K. Sumathi, D. Vimal Kumar	
A Container Migration Technique to Minimize the Network Overhead with Reusable Memory State	350
Gursharan Singh, Parminder Singh	
Deep Q-Learning Network-Based Energy and Network-Aware Optimization Model for Resources in Mobile Cloud Computing	361
Puneet Sharma, T. Sakthivel, Deepak Arora
